# KOBELCO

### SK 140 SRL LOGGING SPECIFICATION

#### Wide shoes for minimum ground pressure

You can count on smooth and dependable travel with the longer crawler and wider shoe that are usually used on machines the next class up.

# Longer Crawler Length: 3,790 mm

Top-Class Ground Clearance: 580 mm

Ground Pressure: 28 kPa at 900 mm shoe

\* Three track guides each side are installed as standard.

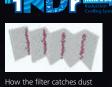

**Digging cycle time** 

## Shortened by 10%

(Compared to the SK140SRLC-5 model)

iNDr Filter

A high-density mesh filter blocks dust intruding during air intake. This prevents the cooling device and the air cleaner from clogging with dust and maintains their performances. The ridges of the corrugated filter allow the air to pass through, and the grooves collect the dust, which prevents the filter from clogging.

#### SK140SRL-7

SK140SRL of KOBELCO has realised a completely new value by harmonising PERFORMANCE – greater efficiency and productivity with an increased power and speed and DESIGN – operator-based operability and comfort, refusing to accept any compromises.

#### The ultimate in simple and elegant design

The jog dial integrates multiple functions to realise simple operations. In addition, the switches and dials have LED backlights – they provide a bright, clear view in the dark and set a luxurious mood.

#### 10-inch colour monitor (the largest in the industry)

The easy-to-operate menu screen facilitates reading of important information. Images from the built-in cameras can be checked on the large screen, which helps secure safety.
